Build a better tomorrow and be a leader in one of the fastest growing industries in Collin County with a degree in construction management from Collin College. Construction management blends the skill sets of architecture, business, and engineering, and teaches you how to manage those processes from a business perspective. Management topics include budgeting, scheduling, quality assurance, and safety.

Careers in Construction Management

Avg. Starting Salary: $70,200
Average Salary: $111,600
Projected Job Growth: 27.7%

The average salary listed reflects the mean average wage for workers in this industry, while the average starting wage is tied to workers at the beginning of their careers. The earning potential for employees with certifications and associate of applied science degrees may exceed the average salary.

Data for Collin County obtained from JobsEQ and O*Net
Note: Average salary for occupation as of 2023 and job growth projected from 2023-2029

About Collin College’s Program

Collin County is one of the fastest growing counties in the nation with prolific construction projects in both residential and commercial properties. Collin College’s Construction Management program prepares students to work in a wide variety of management/supervisory positions, both in residential and commercial areas of construction. Many of the Construction Management courses include labs and the program provides for a summer cooperative education experience.
