## LEARNING COMMUNITIES – A NATIONAL AWARD-WINNING PROGRAM

Learning community courses explore a common theme or central question through the lens of two or more academic disciplines. Professors from each discipline teach the learning community together, providing a deeper understanding of the topic as viewed from multiple perspectives.

Courses are transferable and can satisfy core or major requirements. Search for learning communities in the e-schedule using “Learning Communities” as the Attribute Type. For more information on learning communities, call 972.377.1662 or visit [www.collin.edu/academics/learningcommunities](http://www.collin.edu/academics/learningcommunities).
