Collin College Technical Campus

is a comprehensive campus offering students multiple paths to success in high-demand, high-wage career fields including automotive, construction, health care, information technology, and manufacturing.

**FAST FACTS**

- The Technical Campus is located at 2550 Bending Branch Way in Allen, with an entrance along Hwy. 121.
- The 340,000-square-foot, three-story, four building complex sits on a 32-acre site.
- The campus serves up to 7,100 traditional, dual credit, and continuing education students when fully occupied.
- The campus's “trade bars” are dedicated to major career concentration areas.
- “Learning yards” located between trade bars provide exterior spaces for cross-discipline work and project-based learning.
- Students learn on state-of-the-art equipment used in their chosen industry.

The need for a technical campus in Collin County

- A new pipeline of workers is needed to fill occupations that are expected to grow by 20 percent or more.

- Collin College has developed programs to train future employees for high-need, high-growth, and high-wage occupations in North Texas.

- Industries relying on skills in construction, engineering technology, automotive technology, collision technology, welding, and health care are booming in Collin County.

- Students are educated for careers and can graduate without incurring high student loan debt.

- Strategic partnerships with local school districts have allowed them to expand dual credit and career and technology education programs without duplicate costs.

- High school students are able to enroll in dual credit CTE programs and graduate with industry-recognized certifications and college credits toward Associate of Applied Science degrees.
