When completed in fall 2020, the Technical Campus will be a comprehensive campus offering students multiple paths to success in high-demand, high-wage career fields including automotive, construction, health care, information technology and manufacturing.

**FAST FACTS**

- The Technical Campus will be located along Hwy. 121 between Exchange and Alma.
- It will be a 340,000 square-foot three-story facility on a 32-acre site.
- The campus will serve up to 7,100 students when fully occupied.
- The campus’s “trade bars” are dedicated to major career concentration areas.
- “Learning yards” located between trade bars provide exterior spaces for cross-discipline work and project-based learning.
- Students will learn on the same equipment they will find when they start work.

The need for a technical campus in Collin County

• A new pipeline of workers is needed to fill occupations that are expected to grow by 20 percent or more.

• Collin College’s comprehensive master plan calls for developing programs to train future employees for high-need, high-growth and high-wage occupations in North Texas.

• Industries like construction, advanced manufacturing, HVAC, automotive service technician, collision repair, and health care are booming in Collin County.

• Students will be educated for careers and can graduate without incurring high student loan debt.

• Strategic partnerships with local school districts will expand dual credit and career and technology education programs without duplicate costs.

• High school students will be able to enroll in dual credit CTE programs and graduate with industry-recognized certifications and college credits toward an associate of applied science degree.

High Demand Programs at the Technical Campus

• Advanced Manufacturing – Biomedical Equipment Technology, Electronic Engineering Technology, and Industrial Automation

• Architecture and Construction – Computer Aided Drafting and Design, Construction Management, HVAC, and Welding Technology

• Health Sciences – Certified Nurse Aide, Electrocardiograph Technician, Emergency Medical Technician, Patient Care Technician, and Phlebotomy Technician

• Science, Technology, Engineering and Math – Computer Networking

• Logistics and Transportation – Automotive Technology and Collision Technology
