Method of Evaluation: Students must achieve a minimum of 75% final average in order to pass competencies.

Expectations for taking an online course: It is the student's responsibility to maintain computer and Internet access. In addition to expectations listed elsewhere, students are expected to keep a copy of all saved course work until the final grade has been posted, since electronic communications can fail or crash. This policy may allow resubmission of important items, if permitted by the instructor. If technology issues arise, students are expected to use Collin computers or other equipment for submitting work according to the schedule. In other words, a personal computer or Internet challenges are no excuse for failing to submit work on time. Students are expected to plan ahead concerning inquiries to allow for reasonable response time from the instructor. Students are expected to mark the weeks of the term on their personal calendars and to maintain a check list of work completed and grades received in order to self-monitor progress in the course. Remember that *online courses require the STUDENT to be self-disciplined* concerning course performance.

Students are expected to monitor email, Canvas, Assignments and the Discussion board several times weekly, every day is best, in order to maintain communications with your instructor and classmates. All Discussion posts must be read even if you believe they do not pertain to you.

Computer Skills Needed: You should know how to access a Web site when given an address (URL) or link, use features of your Web browser, download files, attach files to emails, and use MS Word processing software.

Technical Support: Technical support for Canvas is available 24 hours a day, 7 days a week, 365 days a year. You may contact technical support toll-free by calling 1-866-350-5119. In addition, online support is available through the [Canvas Online Support Center](#).

Netiquette Expectations: Expectations for online class involvement:

1. Allow a professor 48 hours to respond to all questions and inquiries during the work week. Instructors are not expected to work weekends; therefore, response time will be extended. Please plan your time accordingly. Requesting to turn in an assignment late, because you are waiting on a reply from your instructor will not be considered an acceptable excuse. Deadlines are deadlines and it is imperative you plan your time accordingly. Grades are usually posted one week after the due date.
2. Communication with instructors should be kept brief. State the problem concisely as well as how you would like them to help. Instructors should always be addressed in a respectful and professional manner. Making demands, criticizing, and "yelling" (writing in a bold font and in all capital letters) are not acceptable

forms of communication and are against the Collin College statement of core values.

3. If the student has an issue with the class, the teacher should be contacted individually. It is not a student's position to appoint themselves "spokesperson" for the class.
4. A student's responsibility is to perform within the structure of the class. Any attempt by the student to change the structure of the class may be regarded as a violation of departmental and college policy.
5. It is in good faith that faculty and students engage in the learning process. It is expected that students perform in class with that philosophy in mind. Students are expected to make a good faith effort to read and understand the material and to engage in learning activities provided by the instructor
