

Textbook Search Instructions

1. Visit <http://collin.bncollege.com> and select “TEXTBOOKS” on the left side of the menu bar.

2. In the “FIND TEXTBOOKS” category, select the campus where your course will take place, the term, department, course, and section.

Add your courses to find everything you need for class.

| SELECT A CAMPUS | | | |
|-----------------|-------------------|---------------|----------------|
| TERM | DEPARTMENT | COURSE | SECTION |
| SELECT TERM | Select Department | Select Course | Select Section |

- Summer term is B17 (*Fall is not available yet*)
- Department and Course are the 4-digit codes associated with the course. For example, Coding with Python is TEEN 5070.
- Section refers to the campus where the course will take place and if the course is first, second, third, option at that campus. For example, TEEN 5070 at CHEC will be CH1 because it is the first option for that particular course at CHEC.
- CHEC, Allen, and Rockwall do not have bookstores. If you are taking a course at one of these campuses that requires a book, select the Courtyard Center as your campus.
- If you are taking multiple courses, you can add them all on this page rather than repeating this process for every course.

3. Now click “FIND MATERIALS” at the bottom of the page. The textbooks associated with your course will populate on the next screen. It will also specify if this is a *required* or *recommended* textbook. If nothing populates, no textbooks are required for that course.

TEEN 5070 CH1 CE B17 TERM

4. Select the format (new, used, etc.). Not all format options are available for every textbook.

5. Add the item (s) to your cart and check out!

6. You can also purchase your textbook at the campus bookstore where your class is taking place. CHEC, Allen, and Rockwall do not have a bookstore. If you are taking a course at one of these campuses and want to purchase your book at the bookstore rather than online, visit the Courtyard Center to do so.
