8. *Do I really need to provide my high school transcript? I've attended college and don't understand why you need it.*

We sometimes request your high school transcript to document Texas residency. State residency laws are very strict and usually this is the easiest way to show that you are a Texas resident. If you don't want to provide it, we can take the requirement off your admissions list; however, you will need to come into the Admissions & Records Office to document residency some other way. **If you want us to delete the requirement, send us an email to Admissions@collin.edu and tell us. Please also provide your CWID and complete legal name.**
