LEARNING COMMUNITIES
Fall 2018 (201910)

Learning community courses explore a common theme or central question through the lens of two or more academic disciplines. Professors from each discipline teach the learning community together, providing a deeper understanding of the topic as viewed from multiple perspectives. Courses are transferable and can satisfy core or major requirements. Search for learning communities in the e-schedule using “Learning Communities” as the Attribute Type. For more information on learning communities, call 972.377.1662.
