About Collin College's Program

In Collin College's Business Management program, you will study basic management philosophies and theories, organizational psychology, as well as business strategy development, implementation, and evaluation skills. The associate degree has two focus options to choose from, Business Management or Entrepreneurship. The Entrepreneurship option is designed for anyone interested in starting their own business or improving their existing business. Additional topics include financial literacy and developing a business loan for funding. A certificate or degree in business management or entrepreneurship will put you in a great position to climb the corporate ladder, no matter the organization.
