Drivers take pride in their vehicles.
As a Collision Repair Technician with an education from Collin College, you’ll help those drivers get that pride back after an accident or other body damage. That includes estimating damages, repairing dents, replacing parts that are beyond repair, matching and mixing paint colors, painting repairs, and refinishing vehicles. With millions of cars on the road and more cars coming to Collin County every day, the market for a career in collision repair is strong.

About Collin College’s Program
The Collision Technology program is designed to prepare skilled technicians for high-skill, high-demand positions in the collision repair industry. Graduates will have the skills to work in auto body shops with major dealerships, large collision repair chains, and independent shops. In addition to earning a certificate or degree, students may earn multiple industry recognized I-CAR and ASE certifications.
