

Bachelor of Applied Science (BAS) Construction Management

Advance Your Career with a BAS degree

Collin County is one of the fastest growing counties in the nation with thriving construction projects in residential, commercial, and infrastructure development. Collin College's BAS in Construction Management degree will prepare students for advancement within the career field by providing a blended skill set of architecture, engineering, and business management to coordinate, budget, and supervise construction projects from conception to completion.

Career in Construction Management

Avg. Starting Salary: \$70,200

Average Salary: \$111,600

Projected Job Growth: 27.7%

The average salary listed reflects the mean average wage for workers in this industry, while the average starting wage is tied to workers at the beginning of their careers. The earning potential for employees with certifications and associate of applied science degrees may exceed the average salary.

*Data for Collin County obtained from JobsEQ and O*Net*

Note: Average salary for occupation as of 2023 and job growth projected from 2023-2029

Why Collin College?

- Earn a BAS in Construction Management at Collin College's low tuition rate, less than at a four-year university.
- Learn from industry professionals and receive hands-on training experience at a fraction of the cost.
- Attend classes at the state-of-the-art Technical Campus.
- Night classes available to accommodate your working schedule.

Advance ... your Degree ... your Career ... your Life

Collin College's BAS in Construction Management degree provides students with the necessary skills and knowledge to become a successful project manager by learning management principles, advanced scheduling, planning, and cost analysis of construction projects; behavior of building structures; principles of building science and sustainability; project safety management; risk management; and building information modeling.
