It's a Small World After All: What Walt Disney and Disney World Can Teach Us

Tuesday, March 16

1-2 p.m.

Virtual

Link details coming soon.

Professor Abigail Manuel has traveled to Disney World every year since 1982 and has seen it evolve from a theme park to a "stationary world's fair" and conservation effort and back again. In this presentation, Professor Manuel will discuss Walt Disney's original plan for the area, how his plan is and was reflected in the park, and what educational opportunities existed and still exist at Walt Disney World!

For more information, contact Professor Dallie Clark, dclark@collin.edu.
