**IV. Funding Requests Presentations:**

**a. Mobile Portable Monitors**

Funding in the amount of \$7,032.00 is requested to cover the costs of two mobile portable monitors for the Celina Campus. The Celina Student Engagement team offers monthly events for students to participate in to engage and provide information to students. This year to date, we have almost 40 programs over the year to showcase student engagement for our new campus. The educational value for our students is a connection to our campus in general and building relationships between the campus community and the student body. We have been working on better ways to get out information on available student events and locations across our building. Still, a

visual is needed to give them the details of time, date, and place, given the campus size and multiple exits. We are still learning student traffic patterns and only have one bulletin board on our building that can be used to connect both sides partially. We have trouble advertising multiple events at a time and highlighting fun campus activities that are geared to create a sense of campus life on our campus. The use of the mobile monitors allows us to be more visual not only to the campus but the community at large. The portable monitors can also be positioned to be observable when offices are closed and act as announcement boards for the community and visitors about student life.
