

Collin College - Continuing Education

COURSE SYLLABUS

COURSE INFORMATION

Course Number: LOGI 7550

Course Title: Detailed Scheduling for Make Items

Course Description: Convert the detailed material plan for make items into detailed schedules for the factory to produce what is needed, when it's needed and in what sequence. Dispatch and monitor the actual execution of the material and capacity plans. Differentiate the terms and techniques to accomplish tasks in this area.

Suggested Course Prerequisite(s): Executing the Plans for Buy Items

Course Resources: N/A

Student Learning Outcomes:

1. Convert the detailed material plan for make items into detailed schedules for the factory to produce what is needed, when it's needed and in what sequence
2. Dispatch and monitor the actual execution of the material and capacity plans
3. Differentiate the terms and techniques to accomplish tasks in this area

Certification Notes: This is a certificate series.

Next course recommendation: N/A

Refund Policy: Please refer to www.collin.edu/ce/infoRegistrar.html for our refund policy. No refunds after the start time of the first class.

Americans with Disabilities Act: Collin College will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal opportunity. It is the student's responsibility to contact the ACCESS office, SCC-D140 or 972.881.5898 (V/TTD: 972.881.5950) to arrange for appropriate accommodations. See the current *Collin Student Handbook* for additional information.

Course Sessions: Listed are guidelines to indicate all topics that will be covered during your course. Do not plan your personal calendar based on these sessions. Your instructor will give you a calendar for your class that will indicate specific topics, assignments, and days.

Lesson Plan – by week or session:

Session 1: Introductions and syllabus. Student Data Forms.

Material plans for make items
Schedules
Sequence

Session 2: Execution of material and capacity plans

Method of Evaluation: Unless otherwise stated, course completion is evaluated on the basis of attendance. Students must be in attendance 90% of each course in a certificate series for successful completion and to earn a certificate as specified.
