 Program Cost =
 \$600***

* = Based on in-county tuition rates.

Did you know... jobs for Phlebotomy Technicians are projected to increase by 25% over the next 7 years? That is almost 4x faster than average jobs!

Course Information:

- Phlebotomy courses are offered at both the Wylie and Allen Technical Campuses.
- **This accelerated Phlebotomy program will be taught over an 11-week period.**
- **PLAB 1323: (80 hours in 5 weeks)**
 At Wylie, this class meets Monday-Thursday from 9 a.m. – 1:15 p.m. and at Tech. it meets Monday, Wednesday, and Thursday from 5:00 – 9:15 p.m.
- **PLAB 1160: (48 hours in 6 weeks)**
 Clinical rotations take place at local hospital and lab facilities, and are scheduled based on student and site availability.

What will I learn?

PLAB 1323 Phlebotomy (3 credit hours)

- Proper techniques/standard precautions for blood collection.
- Skill development in procedures including (but not limited to): vacuum collection devices, syringes, capillary skin puncture, butterfly needles, blood culture, and specimen collection on adults, children, and infants.
- Emphasis on infection prevention, patient identification, specimen labeling, quality assurance, specimen handling, processing, accessioning, professionalism, ethics, and medical terminology.

PLAB 1160 Clinical – Phlebotomy (1 credit hour)

- A health-related work-based learning experience that enables the student to apply specialized occupational theory and skills.
- Direct supervision is provided by the clinical professional.
- Clinical Program requirements must be met in order to participate in rotations (see program application for details).

Important Notes...

- Students are expected to have their own reliable transportation for assigned clinical rotations.
- Clinical rotations are primarily Mon-Fri during the regular workday (7 a.m. – 5 p.m.). It is helpful if students have at least some availability during this timeframe for scheduling.
- Students who complete the Phlebotomy program should consider taking the CNA and EKG programs as well to earn their PCT (Patient Care Technician) certification.

Where can I work and how much will I make?

Phlebotomy Technicians can work at laboratory facilities, hospitals, private clinics, or any other healthcare facility that requires their services.

Certified Phlebotomy Technicians make an average of \$13-17/hour.
