Estimated  
Program Cost =  
**\$968\***

\* = Based on in-county tuition rates.

**Did you know... jobs for Phlebotomy Technicians are projected to increase by 25% over the next 7 years? That is almost 4x faster than average jobs!**

## Course Information:

- Phlebotomy courses are offered at the Collin College Farmersville, Wylie and Allen Technical Campuses.
- Exact course schedules vary depending on the campus and semester.
- Students will be required to complete in-person, online, and clinical hours as part of this program.
- **NOTE:** Students are required to sign a waiver to practice venipuncture skills on each other. Please be aware that this is a necessary practice to be successful in the program.

## What will I learn?

### HPRS 1201 Introduction to Health Professions (2 credit hours)

- An overview of roles of various members of the health care system, educational requirements, and issues affecting the delivery of health care.

### HPRS 2310 Basic Health Profession Skills II (3 credit hours)

- Lecture and simulated laboratory experiences prepare the student to perform patient care utilizing critical thinking and advanced clinical skills.

### PLAB 1323 Phlebotomy (3 credit hours)

- Proper techniques/standard precautions for blood collection.
- Skill development in procedures including (but not limited to): vacuum collection devices, syringes, capillary skin puncture, butterfly needles, blood culture, and specimen collection.
- Emphasis on infection prevention, specimen labeling, quality assurance, specimen handling, processing, accessioning, professionalism, ethics, and medical terminology.

### PLAB 1160 Clinical – Phlebotomy (1 credit hour)

- A health-related work-based learning experience that enables the student to apply specialized occupational theory and skills.
- Direct supervision is provided by the clinical professional.
- Students are expected to have their own reliable transportation.
- Clinical rotations are primarily Mon-Fri during the regular workday (7 a.m. – 5 p.m.). It is helpful for clinical scheduling if students have at least some availability during this timeframe.

## Where can I work and how much will I make?

Phlebotomy Technicians can work at laboratory facilities, hospitals, private clinics, or any other healthcare facility that requires their services.

**Certified Phlebotomy Technicians make an average of \$13-17/hour.**
