National Science Foundation-S-STEM-Computer Science as a Career Scholarship Program

For: Incoming and current Collin College students interested in pursuing a Bachelor's degree in Computer Science. Must be Pell eligible (Fill out your FAFSA form)

Provides: full tuition and cost of living funding

More Details: Scholarship recipients will receive developmental and intrusive advising, mentoring, and tutoring, and will be invited to participate in external networking events, and technology company tours to encourage retention and support completion to transfer. The grant covers tuition for 2 years, a personal computer, field trips, and conferences.

Applicants will be awarded based on financial need as determined by FAFSA (Free Application for Federal Student Aid) form.

The grant is offered in partnership with Texas A&M University at Commerce. Successful Collin College completers will be eligible to continue this grant program at Texas A&M University at Commerce and receive grant funding toward a Bachelor's degree in Computer Science.

This grant ends 7/31/2027.

Contact: Tebring Daly at TDaly@collin.edu for more information.
